

GPT-4o | seed 13 | month 69 | agent 0

State: month=69; S_t=-0.148; unemp=1.50%; infl=6.02%; agent_wealth=57636.18642361624
Retrieved: ids=['E68', 'E67', 'E66', 'E65', 'E64'];
scores=[0.9786287580522663, 0.9549072044107436, 0.9386733717674378]; rules=['high_inflation_strategy']
Rule: high_inflation_strategy: if
inflation is high (>3%), then maintain consumption around 3%; confidence=0.6666666666666666
Action: {"consumption_fraction": 0.03, "labor_hours":
16.8, "work": 0.1}
Rationale: With inflation rising, it's prudent to work minimally and adjust consumption to 3% to preserve wealth.

Gemini-3-Flash | seed 13 | month 47 | agent 0

State: month=47; S_t=-0.141; unemp=0.00%; infl=0.00%; agent_wealth=83204.99749757224
Retrieved: ids=['E46', 'E45', 'E44', 'E43', 'E42'];
scores=[0.9790506038192981, 0.960348876835303, 0.9400927504230041]; rules=[]
Rule:
Action: {"consumption_fraction": 0.06, "labor_hours": 168.0,
"work": 1.0}
Rationale: My wealth decreased slightly last month, so I will maintain full employment and keep consumption at 6% to stabilize my
savings against rising prices.
